Frederick Ding's practice focuses on patent litigation, trade secret litigation, and appeals. Mr. Ding has represented both plaintiffs and defendants in intellectual property disputes through all phases of district court cases and Federal Circuit appeals. He has argued dispositive issues and claim constructions, written successful motions and briefs, developed appeal strategies and drafted appellate briefs, taken and defended depositions, analyzed various technologies, and prepared witnesses for deposition and trial. His technical experience spans a wide range of industries and technologies, including medical devices, diagnostic medicine, LEDs, streaming video, networking equipment, big data analytics, and telecommunications.

Mr. Ding represented Avanos in a patent infringement suit against its competitor involving cooled radiofrequency (RF) ablation technology used to treat pain. The Desmarais LLP team achieved an IPR final written decision upholding all challenged claims of Avanos's patent, persuaded the district court to enforce IPR estoppel against product prior art raised in the IPR, defeated summary judgment, and **secured a very favorable settlement** on the eve of trial.

Mr. Ding was part of the team that **secured an additional \$100 million in enhanced damages** on behalf of Ravgen for Labcorp's infringement of Ravgen's non-invasive prenatal testing patent. Mr. Ding spearheaded Ravgen's affirmative post-trial motions, including drafting the motion for enhanced damages that persuaded the Western District of Texas to award additional damages on top of the \$272 million jury verdict.

Mr. Ding's appellate experience includes successes at the Federal Circuit. Representing a patent owner appealing a district court's grant of summary judgment, the team convinced the Federal Circuit to vacate summary judgment and remand.

Mr. Ding maintains a pro bono practice as part of his work at Desmarais LLP. Working with Immigration Equality, Mr. Ding achieved a grant of asylum in immigration court for an LGBTQ refugee. During the COVID-19 pandemic,

EDUCATION

Harvard Law School, J.D., 2018, cum laude; *Harvard Law Review*, Executive Editor; *Journal of Law & Technology*, Managing Editor

University of Pennsylvania, B.S.E., Bioengineering, Minor in Mathematics, 2015, magna cum laude; University Scholar
